Section 4. First-Aid Measures

Description of Necessary Measures

Inhalation
Remove person to fresh air and keep comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER/doctor.

Skin
Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Eyes
Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Ingestion
Rinse mouth thoroughly with water. Do NOT induce vomiting. If swallowed, get medical attention.

Most Important Symptoms/Effects

Acute
May cause sore throat, coughing. May cause respiratory irritation. May cause irritation of mucous membranes, runny nose. Causes serious eye irritation. May cause allergic or asthmatic symptoms or breathing difficulties if inhaled. May cause allergic skin reaction.

Section 5. Fire Fighting Measures

Suitable Extinguishing Media
BC-powder, regular dry chemical, carbon dioxide

Unsuitable Extinguishing Media
None known

Special Hazards Arising from the Chemical
Extremely flammable aerosol. Pressurized container: Do not pierce or burn, even after use.
Hazardous Combustion Products

Advice for firefighters

Releases toxic and/or corrosive gases. May polymerize with evolution of heat.

Fire Fighting Measures

Move container from fire area if it can be done without risk. Damaged cylinders should be handled only by specialists. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Cool containers with water spray until well after the fire is out. Do not direct water at source of leak or safety devices; icing may occur. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire. ALWAYS stay away from tanks engulfed in fire.

Special Protective Equipment and Precautions for Firefighters

Wear personal protective clothing and equipment such as self-contained breathing apparatus (SCBA) for protection against possible exposure.

Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

Wear personal protective clothing and equipment, see Section 8. Avoid heat, flames, sparks and other sources of ignition.

Methods and Materials for Containment and Cleaning Up

Allow spilled material to cool and solidify before attempting to clean up. Wash thoroughly after handling. Do not touch or walk through spilled material. Stop leak if possible without personal risk. Do not direct water at spill or source of leak. Use water spray to reduce vapors or divert vapor cloud drift. Avoid allowing water runoff to contact spilled material. If possible, turn leaking containers so that gas escapes rather than liquid. Prevent entry into waterways, sewers, basements, or confined areas. Allow substance to evaporate. Ventilate the area.

Environmental Precautions

Avoid release to the environment.

Section 7. Handling and Storage

Precautions for Safe Handling

Keep away from heat/sparks/open flame/hot surfaces - No smoking. Pressurized container: Do not pierce or burn, even after use. Do not spray on an open flame or other ignition sources. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Do not breathe dust/fume/gas/mist/vapors/spray. Wear respiratory protection. Wash thoroughly after handling. Contaminated work clothing must not be allowed out of the workplace.

Conditions for Safe Storage, Including any Incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50C/122F.

Incompatible Materials

strong acids, strong bases, amines
